CONTENT

- Implementation of rule changes
- Selection of ITOs for 2017
- The 2017 World Series
- Updated Long-Term Calendar

IMPLEMENTATION OF RULE CHANGES

In the last newsletter, the rule changes approved by the ICF Congress in November 2016 in Baku was published.

Most of the changes are either correcting typing errors or, administrative changes and clarifications in wording.

When it comes to the implementation of the following two new rules, this is what has been decided:

Art. 28 Finish

New section: *Competitors who have been lapped will end their race the next time they cross the finish line after the winner has finished their race. They will be recorded in the place they are at that point in the race. This rule applies to World Championships and World Cups.*

Implementation

The implementation of this rule may vary slightly depending on the configuration of the course. For the 2017 World Championships and whenever the course configuration makes this method possible the lapped competitor will be recorded as finished and must leave the course the first time he or she crosses the time recording point at the portage after the winner of the race crosses the finish line. The results will be recorded showing the number of laps not completed. e.g. (-1 Lap).

Art. 29 Disqualifications and penalties

New section: *If a competitor is observed by an International Official to throw a drink bag into the water, they will receive a 30 second penalty. The decision is to be confirmed by the Chief Course Umpire and cannot be the subject of an appeal.*

Implementation

Competitors must not dispose of their drink bags or small plastic energy syrup packets while on the water or on the portage pontoons and ramps as bags there may still be knocked into the water by themselves or other competitors. Drink bags and small plastic energy syrup packets must be discarded only on the portage anywhere between the pontoons/ramps. The 30 second penalty will be applied if drink bags or plastic energy syrup packets are disposed of anywhere else on the course during the race.

THE 2017 CANOE MARATHON WORLD SERIES

We introduced the Classic Series to try to meet needs for our athletes wishing to have ICF competitions using the "old" concept of competition format like A to B races, but also to meet needs for organizers for ICF recognition.

The organization of the series has not been working satisfactorily and for some time we have discussed trying to find a better solution with the purpose of trying to make these competitions attractive for paddlers and organizers.

- The view is that **prize money** is essential for attracting athletes to these competitions.
- It was seen to be a better solution and consequently decided to drop the organizers fee to the ICF by which the overall money prizes is dropped as well, and instead require prize money in each individual competition **in the current prize money classes, K1 Men and Women.**
- It was seen to be a better solution and consequently decided to combine the current Classic Series races, the World Cups and the World Championships in a **World Series**, with a point system leading to the World Ranking with World Championships as the final event.
- **The World Ranking will be in each of the four classes K1 Men and K1 Women, C1 Men and C1 Women**, and the winner of the World Ranking will receive an ICF Trophy at the World Championships. The point scoring system will be as follow:

Final classification in the event	World Championships	World Cup events	Classic Canoe Marathon races
