

Report of Canoe Slalom Development Program
TIP CONTINENTAL ASIA
2018 South East Asia Championships
THAILAND – NAKKHON NAYOK March 2th to 12th 2018

A. Accommodation, venue and participants

ICF development training camp took place in Nakhon Nayok, Thailand. Accommodation, breakfast, lunch and dinner were made 10min driving distance from the venue. In the accommodation, the owner was very nicely and helping TIP group during the week.

The group was made of 9 athletes as 4 girls and 5 boys from 4 different countries (average age 18)

The group was split in 2 parts:

- Beginners (coach: Sherry Wei-Han-TPE): SIN (1), MAC (1), THA (2)
- Intermediates (coach: Romain Piton-FRA): SIN (1), MAS (2), THA (2)

Most of athletes train only on flatwater in their countries, but they overcome the difficulty and practiced many basic technics. This time, they become to competitors from beginners. It was a good chance for them to train in Nakhon Nayok with different levels of paddlers to improve the skills.

We had twice training sessions a day, almost every day. Athletes can practice more to improve their skills on the course of Nakhon Nayok.

B. Coaching and equipment

Equipment was made of personal boats for almost paddlers, except for Sin Yi Louisa (MAC) who borrowed a boat from the local. Thanks to RCAT, without this help the quality of the work would not reach the targets.

Romain Piton from France, he was the first time to coach in TIP camp, collaborated with Sherry Wei-Han Chen from Chinese Taipei, and she was an assistant coach at last year's Canoe Slalom Junior & U23 World Championships. It was a new challenge for them to handle on it.

This time, we had the chance to split the big group in 2 smaller groups, so we work together for some training sessions, to share our different opinions and teaching the athletes more knowledge from the two coaches. We also recorded some videos with athletes to analyzed and discussed their training runs. It was a good time for them to watch their own video during the camp, because most of them didn't have that much training video from the whitewater river.

For the video recorded we thanks to Muzaffa Mustaffa (coach of Malaysia and also Marina's father) for kind assistance.

D. Global development of canoe slalom in Asia

Thanks to the heavy work and support given by RCAT and Nicolas Noel (National coach for Thai team), a large part of the group already came in the last 3 years in Nakhon Nayok through **the EEWC program** for the Open Thailand and **TIP program for 2017 Asian Championships**. The global level of the group has drastically increased. It gives us the best hope for a fair participation at the Asian Games this year.

The new generation of South Asia is growing up, we can see more athletes to participated in canoe slalom events. Furthermore, these athletes achieve their full sporting potential and become to play at a competitive level. The following Asian Games 2018 host by Indonesia, it will also be the highest-level event for canoe slalom for the first time in Southeast Asia, which is a new milestone in the history of the development of canoe slalom in Asia. and we still look forward more countries to join this big event in the future.

In the frame of the educational programme led by the Canoe Slalom development programme, athletes were introduced to 1st steps of judgement in canoe slalom and basics for race organisation. During the course, they understand more about the rules of canoe slalom, and enhance their knowledge of the rules.
