### BRATISLAVA, City full of History

The capital of Slovakia attracts visitors with its rich history and landscape, as well as its modern buildings. Visitors can't miss Bratislava Castle, with its own Historical Museum and surprisingly quaint gardens overlooking the city. Stroll down the picturesque streets of the district under the Castle towards the Old Town, featuring the remarkable St. Martin's Cathedral. This Gothic Cathedral witnessed the coronation of 19 Austro-Hungarian kings and queens, including Maria Theresa, whose importance was felt throughout Europe. The Main Square (Hlavné námestie), extremely rich in historical and cultural monuments, draws visitors in with its charming atmosphere. Here, you can also find several palaces, the Bratislava City Museum, the Old Town Hall (Stará radnica), and Roland's Fountain, all serving to enrich the atmosphere. Visit the Primate's Palace, with precious English tapestries from the 17th century and beautiful displays in its Art Gallery. We must mention the nearby Blue Church (Modrý kostolík), an Art Nouveau gem with blue plaster and roof. For sightseeing in Bratislava, you can also hop on the small historical train and explore the entire city, beginning from the Castle and ending in the streets of the Old Town. This train runs throughout the year. On the right bank of the Danube, relax in the oldest public park in Central Europe called Sad Janka Kráľa, which was founded by Maria Theresa. At the end of the park, you will see the suspension Bridge of Slovak National Uprising (Most SNP), whose UFO café offers amazing views of the city's surroundings (we also added it to logo of this competition). Enjoy a trip down the Danube (Dunaj) on a sightseeing boat. You can choose from among several different routes, like a cruise around Bratislava, one up to Devín, a cruise on the other side to Gabčíkovo and much more.

## Transport

### By car

Here you can access interactive Google Maps navigation: [Navigation map](#).

Bratislava is connected to neighbouring capitals by international multilane highways. Within Slovakia, the D1 motorway connects Bratislava to the east of the country and the D2 motorway connects Bratislava with Hungary to the south and the Czech Republic to the north. These roads are parts of international routes E58 (to Austria) and E65 (to Hungary and the Czech Republic).

The D1 and D2 motorways are linked in Bratislava by a partial ring road on the south (Petržalka) side of the River Danube. It is the fastest way to get from one end of the city to the other, especially if you are unacquainted with the inner-city traffic system.

### By air

If you want to fly to Bratislava, you can choose between the city's own international airport and Schwechat airport in Vienna, which is about 60 km from Bratislava and connected by regular shuttle buses. Regular flights link these airports with many major European destinations.

Vienna International Airport (VIE)

[www.viennaairport.com](http://www.viennaairport.com)

Bratislava Airport (BTS)

[www.airportbratislava.sk](http://www.airportbratislava.sk)

### By train

International trains to Bratislava's main railway station run from Vienna (1 hour), Budapest (3 hours), and Prague (4-5 hours) several times a day. There are less frequent direct connections to Berlin, Bucharest, Kiev, Moscow and Warsaw. The main railway station is a short distance from the centre and there is a regular tram connection; alternatively, walking takes 15-20 minutes.

Trains from Vienna also arrive at Bratislava–Petržalka Station, which is to the south of the city centre across the Danube River and has direct bus connection with the Venue (Public transport, Bus 90).

### By boat

Perhaps the nicest way to arrive in Bratislava is by riverboat, via the Danube. The Rhine–Main–Danube Canal links Bratislava with the North Sea; the Danube River connects it to the Black Sea. Cruises along the Danube have been a big hit with tourists for many years. River cruises

go to and from Budapest, and a scheduled passenger service, the Twin City Liner, connects Bratislava and Vienna by high-speed catamaran several times a day during summer.

## COMPETITION VENUE

The Venue is located in Bratislava – Čunovo, 20 km from the town center.

## Whitewater channel - course combination

The two main channels are interconnected several times thus providing several possible combinations of the drive track. The water difficulty levels range from WW II to IV; this difficulty levels can be regulated by flaps letting the water into channels. In the Čunovo channel there are 5 different types of tracks that can be modified and regulated. The combination of tracks 1 and 2 and the difficulty degree of WW III are the most used ones. At the ends of the channels there are two outputs mouthing directly to the Danube. In the natural channel, that is 255m long, 14m wide, and 1.2m deep, the water is calm. It serves to prepare the athletes before entering the main channel.

Left Course will be used for Qualification and for Semi-Finals & Finals.
