ICF CANOE SPRINT AND PARACANOE  
WORLD CHAMPIONSHIPS

## **DEAR FRIENDS OF CANOEING,**

A warm welcome to all our Guests!

It is not the first international canoe competition that we organise in Szeged. Yet, I am certain that after the greatest development in the history of the course, everyone will be stunned by the renewed circumstances.

During the reconstruction of the Szeged Rowing and Canoe Olympic Centre, it was a primary consideration to provide the participants with even better service, so an expanded athletes' area and a World Championship with all possible comforts await the protagonists.

Such a large-scale event is organised well if we can provide excellent conditions to race and, at the same time, fans' needs are also catered for. With my colleagues, the members of the Organising Committee we will do our utmost to achieve this.

From now, a covered grandstand, better parking facilities, renewed fan village, as well as on-site shows await spectators.

We are also happy to state that athletes from almost 100 countries have entered the World Championships. What's more, a vast number of tickets have been sold in advance, so we can organise the greatest canoe sprint competition ever in Szeged.

We hope that the latest information shared on the following pages will help you to find your way amidst all the coming and going of the sport's top event.

Have a great time!

**Gábor Schmidt**  
Chairman of the Organising Committee

Athletes who are required by media for an interview will be called after each race. They need to disembark at the same pontoon that is used for second boat control. Apart from calling their lane numbers aloud white numbers on blue plates will be displayed.

## **SPORT-PRESENTATION**

### **PRE-RACE SPORT PRESENTATION ELEMENTS:**

The Sport Presentation team will implement a new form of introduction. Each athlete/team will be shown from a pre-recorded video sequence one by one right before the actual race starts (only in Final A). It requires that all Final A athletes/teams must go through a short (2 min.) shooting procedure right after their semi-final boat control. Studio locates at the Boat Control station.

### **POST-RACE SPORT PRESENTATION ELEMENTS:**

The following instructions apply only to Final A races, all the others have to follow the normal boat control procedure.

All FINAL „A” medalists (1-3) must disembark immediately after finishing the race on the celebration pontoon located next to the medal ceremony stand. There will be a display on the finish tower which will show the lane number of the top 3 ranked boats. It will help the athletes to decide which disembarkation pontoon they have to paddle to. The top 3 ranked boats must turn right back and paddle to the celebration pontoon, all the others have to return to the Athletes’ Area. If “PhotoFinish” text appears on the display the athletes have to wait until the finishing judges decide on the top 3 finishers. The result will appear on the display once the judges deem it to be official.

### **DISEMBARKATION ON THE CELEBRATION PONTOON:**

Short interviews by the ICF TV will be recorded right after disembarkation where trainers/family members can greet the medalists at first hand. Right after the athletes can walk away passing the fans sitting on the grandstand. ITO’s will weigh the boats during this time.

## PRE-RACE PROCEDURE

Only athletes for the next race start will be allowed to enter the indicated starting areas 200-300m, 500-600m, and 1000-1100m. They will be called to the starting area 4-5 minutes before the start. Once the boats enter the starting area they are forbidden to turn around and they need to paddle a straight line towards their assigned start boots.

Aligners will be placed at the beginning of the starting area – 300m, 600m, or 1100m to control the boats' flow. Please advise athletes to follow the instructions from aligners, and do not enter the starting area if they are not called and they are not part of the following race.

## 5000M EVENTS:

The 5000m events will run without portages. 5000m races will start at the southern end of the course. It will consist of 5 laps (1 long and 4 short ones). The first turning point will be at around 750m up the course. The long lap is followed by four shorter laps meaning that the upper turning point (3rd, 5th, 7th and 9th) will be at around 300m while the lower (2nd, 4th, 6th and 8th) turning point at the finish line.

Rules are based on canoe sprint rules. Only boats with specifications set out in the Canoe Sprint Competition Rules can be used and pumps are not permitted.
