

## Info Bulletin #2

July 2019

Dear Sport Fans,

The Romanian Canoe Federation together with the International Canoe Federation and Romanian Ministry of Youth and Sports are pleased to invite you to take part in the ICF Junior & U23 Canoe Sprint World Championships held at Bascov-Pitesti, reg. Arges from the 1st to the 4th of August, 2019.

The National Canoe Sport Centre, where the Regatta Course is set, is seven minutes from Pitesti City and 140 kilometres from Henri Coanda International Airport, connected to Bucharest–Pitesti freeway. The location provides ideal conditions and facilities for athletes as well as for spectators.

In continuation we would like to summarise the information dealing with competition, board, lodging, and the services included in the participation fee. You are kindly requested to download the forms from the competition website and forward it with your information either by e-mail, regular mail, or fax in conformity with the valid ICF rules till the deadlines indicated, thus facilitating the data processing and the accreditation.

You can reach the official website of the competition from February 15, 2019 ICF site or Romanian Canoe Federation site: [www.kaiac.ro](http://www.kaiac.ro)

An email was sent to all National Federation, named Info Bulletin #1.

Looking forward to see you,  
Organising Committee

**Course :**

The total length of the water canal is 2180 meters, width of the main canal is 120 meters and the depth is around 2 to 3 meters.

The return channel is 80 meters in width with two connection canals, one of 500 meters and the other 1300 meters.

The Regatta Course has 9 lines of 9 meters using the Albano system.

Starting points are equipped with three automatic polarity start systems.

**Weather:**

The average temperature in July and August is 26 to 30 degrees Celsius.

The frequency of storms in this period according to the Romanian Environment Agency is about 15%.

Wind conditions are favourable in the summer months but are specifically not a concern as the venue is surrounded by trees and is not a lake system that is susceptible to wind effects.
