

# OFFICIAL COMMUNICATION

## Item – 1

<b>SUBJECT</b>	<b>Situation in Pau</b>
----------------	-------------------------

Please find attached the Official Training Schedule and the entry lists.

As you would all be aware, the situation in France, like the rest of the world, is changing often due to Covid19. Tonight (October 28) French President Macron is due to make an announcement regarding the latest restrictions that France will put in place to fight the spread of the virus. The French Canoe Federation and the Host Organising Committee will liaise with their national and local authorities to look at possibilities to hold the event uninterrupted.

Obviously, this may have an impact on our World cup in France on November 6-8. The ICF and the Pau organising committee have put together contingency plans to deal with several different scenarios. As soon as the situation becomes clearer, we will communicate the latest arrangements with you at the latest on Friday 30<sup>th</sup> October in the afternoon.

Many of the National Federations have already arrived in Pau. We will keep you updated about the measures and training possibilities.

The safety and health of all participants is the top priority for the ICF and Pau organising committee, and we appreciate your continued support in this regard.
