

OFFICIAL COMMUNICATION

Item – 1

SUBJECT	Situation in Ljubljana-Tacen
----------------	-------------------------------------

Due to the current high-water level in Tacen and the potential for expected heavy rain in the coming days the ICF and the HOC agreed to delay the publication of the training schedule and the updated competition schedule.

The ICF and the HOC will hold a videoconference early afternoon on Thursday 8 October to review updated weather forecast and all potential scenarios.

An official communication will be published after this meeting with the training schedule and the competition schedule.

The ICF and the HOC
