10.2 - START

[SR]

10.2.1 - The Start Line must be clearly marked, with the marks described to the athletes in the race instructions.

~~10.2.2~~ - The Start Line should be long enough to allow all athletes to line up alongside each other. Everybody must have equal opportunities, but the best-ranked athletes - according to the ICF SUP World ranking should get the best starting positions in case of lack of space. When this is not possible, athletes will be organised according to the ICF SUP World ranking with the best-ranked athletes win the best place to start the race.

~~10.2.3~~ - 10.2.2 - The start signal must be described in the race instructions.

~~10.2.4~~ - 10.2.3 - Athletes should be at the start at the time specified in the competition programme. The start will be given without reference to any absentees.

~~10.2.5~~ - 10.2.4 - The start must be as fair as possible, allowing all athletes an equal chance. Should this not be the case a restart can be ordered.

[SR]

10.3.1 - The method of starting should be one (1) of the following and should be decided by the HOC and included in the information booklet distributed beforehand:

10.3.1.a Beach Start (Long Distance, Technical, and Inflatable)

- Athletes will line up at the water's edge.
- All athletes will hold their crafts, in ankle to thigh deep water as instructed by the Starter or Aligners.
- When all athletes are aligned and the conditions are favourable, the start signal will be given.

10.3.1.b Bank Start (Long distance, Technical, and Inflatable)

- The boards are lined up on the bank.
- The boards must be on the ground next to the athletes. Athletes can hold the boards, but they must not be lifted off the ground.

10.3.1.c Stationary Water Start (Long Distance, Sprint, Technical, and Inflatable)

- The position of the boards at the start is such that the noses of the competing boards are on the starting line.
- The boards must be stationary.
- The boards may be held at the tail by board holders, or blocked at the front by an automatic start system;
- Athletes start from standing, kneeling or sitting (on board) positions. The position must be described beforehand.
- This starting line ~~must~~should be perpendicular to the first turn buoy.

10.3.1.d Rolling Water Start (Long Distance and Inflatable)

- A rolling start can be used when conditions do not permit a stationary water start. ~~Where strong wind or current render a stationary start difficult, a rolling start may be used.~~ The boards are allowed to drift or paddle slowly towards the start line with a view to crossing at the time of the signal.
- The start line may be fixed or be between two (2) boards that are moving.

Wherever is possible all boards in an event should line up at the starting line. Where this is impossible or

impracticable owing to lack of space, or water or weather conditions, the following alternative simultaneous starting procedures may be employed:

10.3.1.e Grid Start (Long Distance, Technical, and Inflatable)

- Where a simultaneous start in one (1) line for all athletes is impracticable or undesirable, a Grid Start for Bank start, Stationary Water Start or Rolling Water Start (in groups) may be used.
- The athletes are separated in groups. The groups are lined up behind each other and determined by ICF World ranking or random draw.

10.3.1.f Interval Start (Long Distance, Technical, and Inflatable)

- Where a simultaneous start is impracticable or undesirable, an Interval Start for Beach Start, Bank Start or Stationary Water Start (either in groups or individually) may be used. Starting order will be determined by ICF World ranking or random draw.
- Athletes or group of athletes should start from the same start line at equal intervals.

10.3.2 - In all cases athletes must be called to the Starting Area at least three (3) minutes before the scheduled start.

10.4 - START PROCEDURE

[SR]

10.4.1 - For all starts, the start signal must be audible to all racers. The audio may be a blast of a whistle or horn, a shot from a start gun or a shouted word “go”. A flag signal ~~must~~may be used along with the audio signal to be sure that all athletes hear and can see the start instructions.

10.4.2 - The following procedures will then apply for the respective starts:

10.4.2.a Beach Start, Bank Start, Stationary Water Start, and Grid Start

- The Starter must ensure all boards are stationary behind the starting line.
- When the Starter is satisfied that the boards are aligned correctly and are stationary, he/she will call “Ready” followed by the start signal.

10.4.2.b Interval Start

- A list of athletes with their starting times must be displayed on a notice board and/or issued to the athletes at least one (1) hour before the start of competition.
- The Starter must count down for each athlete with a loud and clear voice from 5 to zero (0). Instead zero (0) he/she must say “Go” *along with the waving of a flag.*
