The Pau Canoe Events Association continues and strengthens this year its commitment to sustainable development.

The whole team is proud to announce the official awarding of the "Sustainable Development, sport is committed" label at Silver level.

This label, awarded by the French National Olympic Committee, shows all the work we are doing to create sustainability and eco-responsibility for our events and more particularly for this Canoe-Kayak World Cup Final.

Now the next objective is to reach the Gold level for the next editions!
