

## **2020 ICF Anti-Doping Statistics**

2020 a year with reduced number of doping control, due to the COVID-19 Pandemic.

The statistics reported for the ICF in-competition and out-of-competition programs cover tests that are initiated by the ICF or its representatives. These statistics do not include in-competition and out-of-competition testing initiated by National Federations or National Anti-Doping Organizations.

→ Overall number of Doping Control: **169 tests**

### **2020 In-competition testing statistics**

The ICF is responsible for Anti-Doping testing during ICF Competitions which includes Junior and Senior World Championships and World Cups in all disciplines.

The ICF performed **32 in-competition tests** as testing authority.

### **Out-of-competition testing statistics**

**137 samples** (blood, urine, or passport samples) have been collected from out-of-competition testing in 2020.

The ICF Out-of-Competition Testing Program is coordinated by the Canadian Centre for Ethics in Sport Anti-Doping Service (CCES) since 2012.

### **Sanction**

No sanction given by the ICF as Result Management Authority.
