ICF Anti- Doping Education Program

All Athletes participating in the ICF CSL Senior or Junior & U23 World Championships, World Cups or ICF Ranking Competitions must complete the WADA *Athlete Learning Program about Health & Anti-Doping*.

This online anti-doping education is compulsory even if the Athlete has completed the “Pure Performance” or a National program in the past.

This program gives information about the dangers of doping and the importance of anti-doping controls.

The direct link to the Program is:

<https://www.canoeicf.com/anti-doping-education>

The Athlete will create a user name and account.

It is important they write their full name and user name **in English letters** so that when WADA report to the ICF it is clear who has completed the program eg if they use a name like JD, slalom hot dog etc we cannot tell who this is.

Please say “**Canoe Slalom**” for the discipline this includes if you only compete in Extreme – use Canoe Slalom

There are 10 sessions that vary in length but are aimed at elite Athletes. The program can be completed in range of languages and takes around an hour to finish.

If Athletes have already completed this program as juniors they **DO NOT** need to do it again. If they are unsure check with Sue Natoli suenatoli@gmail.com

As soon as the athlete completes the sessions they will receive a certificate by email. Please forward this certificate to Sue Natoli and eventually they will also be auto updated in the ICF database as having completed the program.

Thanks for your assistance with this.
