Personal ambition

In 1982, at the age of 7, I was introduced to this wonderful sport, which I have been practicing on a daily basis ever since. After my professional sports career, I worked as the national team leader for the Hungarian Canoe Federation from 2009 to 2016. Following that, I began focusing on the development of the slalom discipline in Hungary. Since 2021, I have been a member of the ICF Sprint Committee. I consider it important for the Olympic program to be predictable and sustainable in the long term. At the same time, we need to ensure that our sport remains a stable part of the Olympic program. I would be happy to work towards these goals as a member of the Committee in the upcoming Olympic cycle.
